

February 25, 2015

Dear Oystercatcher Island Villas Owner:

For safety reasons, the Board of Directors has requested that all owners who currently have propane tanks installed at Oystercatcher please fill in the requested information below, sign and return to:

Oystercatcher Island Board of Directors  
PO Box 2308  
Pawleys Island, SC 29585

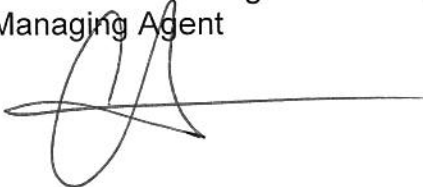

Beginning August 2005, all owners with propane tanks were required to have their propane equipment inspected **annually** by their gas company and to provide proof of this inspection to the homeowners association. This is a crucial issue regarding propane tanks due to a near disastrous gas leak at one of the units in the past.

If you have not yet installed a propane tank but intend to in the future, I have enclosed the proper form to be filled in and sent back for Board approval. This may be sent back with your proxy, which you will find in your Annual Meeting packet.

Thank you for your cooperation in this matter.

For The Board of Directors,

Waccamaw Management Company, LLC  
Managing Agent

Chris Petrik, CMCA, AMS  
Association Manager

I have installed a propane tank at my  
unit # \_\_\_\_\_  
at Oystercatcher Island. I agree to have  
my propane equipment inspected in  
August of each year:
